WHY GIVE TO LA CLINICA?

La Clínica de La Raza is one of the largest community health centers in California.

Our mission is to improve the quality of life of the diverse communities we serve by providing comprehensive, culturally appropriate and accessible health care services to everyone; regardless of age, race and ethnicity, gender identity, sexual orientation, immigration status, or ability to pay.

La Clínica provides a wide array of integrated services at every stage of life including medical, dental, optical, behavioral health, social services, and health education. La Clínica is more than just a “clinic” and our ongoing challenge is meeting the demand for the quality comprehensive services we provide. La Clínica serves a patient population that is low-income and have multiple complex needs. La Clínica works with every patient guided by an awareness that an individual’s health depends on more than just genetics and the care provided: access to quality education, healthy homes, safe neighborhoods, employment, transportation, physical activity, and nutrition, as well as language, cultural and socioeconomic barriers play a vital role. That is the far-reaching legacy you support when you give to La Clínica.
